New Wine Tour Adventure in Paso Robles

PASO ROBLES, CA – Central Coast Jeep Tour Adventures announced today it was now in full operation in the flourishing Paso Robles American Viticulture area.

Central Coast Jeep Tour Adventures, a wine tour adventure company, provides guests with the opportunity to experience Paso Robles wine country from the vantage of fully-restored scramblers with custom-tailored wine tasting/touring adventures. Customers can partake in any of the six-passenger touring Jeeps and face one another for a more intimate wine tasting experience.

Sal DeMauro, following the lead of his brother Dave of Cloud Climber Jeep Tours operating in the Santa Ynez Valley, shares his love for the local wine country with unique experiences to tourists, locals and wine country guests who want a distinct and different experience exploring the area's diverse microclimates and touring opportunities. DeMauro, upon seeing the potential for fully custom-tailored jeep wine tours for area wineries and vineyards, assembled a fleet of vintage Scrambler Jeeps.

Along with that, CCJTA is proud to have a crew of passionate Jeep drivers/hosts who are highly knowledgeable of the area; ensuring guests get the best Paso Robles wine country experience possible.

“We strive to give every customer the most unique and fun-filled wine tasting experience possible.” He continues by saying, “What better place to explore the Paso Robles wine country than in the back of a Jeep Scrambler. Whether you're exploring the more than 40 wine grape varieties growing in the AVA or in search of a post-winetasting 4X4 adventure in the Santa Lucia Mountains near Paso Robles, open-air or covered Jeeps can offer just the experience you're looking for.”

CCJTA offers wine country tours/adventures for the following:
